Trust Company

You take me down, further inside of me
Now I'm fading out, I can barely see
I hover

To see you leave again, it's over
And it kills me to watch you descend, to the end

Can't think straight
Shutting me out - closing me out
Are you trying - hurting
Taking me out - leaving me out
Keeps me struggling
You're leaving

You take me down, further inside of me
Now I'm fading out, I can barely see
I hover

to see you caving in, I'm undone
And to say it's the last time again
It's the end

Can't think straight
Shutting me out - closing me out
Are you trying - hurting
Taking me out - leaving me out
Keeps me struggling
I'm leaving

You take me down, further inside of me
Now I'm fading out, I can barely see
I hover

I'm watching you descend
I'm hovering instead
I'm watching you descend
I'm hovering instead

You take me down, further inside
Now I can see through you

You take me down, further inside of me
Now I'm fading out, I can barely see
I hover
I hover
I hover
I hover - again
