

All Nighter

Tryhardninja

I'm here to tell you 'bout the cr-crazy day I had
Sk-skated doing backflips no knee or elbow pads
The day I drew a robot then watched it come to life
Sl-slayed an evil dragon and then I hopped in my

Spaceship to explore the stars
Yeah I'll never forget the

Day I shot a laser
One crazy adventure
Changed my clothes then changed my face
And won a helicopter race
I dug underground
Found five diamonds around
Yeah that was the day
I stayed up all night playing games

After a nuclear fall out ru-ruled a barren land
Su-summoned my star power became a rock legend
The day I built a city then crawled into some pipes
Sa-saved a captured princess then we rode off in my

Spaceship to explore the stars
Yeah I'll never forget the

I stayed up all night playing games [2x]

Wiped out aliens from the sky
Rescued earth then hopped in my
Spaceship to explore the stars
Never ever forget the

I stayed up all night playing games [3x]
I stayed up all night
I stayed up all night playing games
