

Back In Black

Tryhardninja

Organic matter rearranged
My skin and bones will be replaced
Those arms are so 2028
On artificial life support
The future she is taking form
Augumented human kind will be reborn

Covert operations won with robot moving parts
There's Secrets in shadows
But our eyes see in the dark
We're Back in Black
This combat
Got an upgrade human half way
Cause now my skin is metal scrap
We're Back in Black
Synchronized
We got ourselves digital cells
Better be ready cause tonight
We're Back in Black

Annihilate our enemies
We glitch through time and gravity
Superior hard wired programming
Yeah!
When evolution is at stake
There is no price that is too great
Leave you in ruins don't get in our way

Covert operation won with robot moving parts
There's secrets in the shadows
But our eyes see in the dark
We're Back in Black
This combat
Got an upgrade human half way
Cause now my skin is metal scrap
We're Back in Black
Synchronized
We got ourselves digital cells
Better be ready cause tonight
We're Back in Black

We're Back in Black
Fuse and push ourselves further to overdrive
There's no going back
Because Tonight
We're Back in Black
This Combat
Got an upgrade human half way
Cause now my skin is metal scrap
We're Back in Black
Synchronized
We got ourselves digital cells
Better be ready cause tonight
We're Back in Black
We're Back in Black
We're Back in Black
We're Back in Black

We're Back in Black
