

Be Very Afraid

Tryhardninja

I am the monster lurking
I am the fallen one
Find me inside the darkness
I'll show you what I've become
I see the fear inside of you
When your hope is weak
Time to restore the balance
'Cause revenge is sweet

Be very afraid

'Fraid, you're my holy nightmare
Die! They can't hold me back
I, made me broken to the core
But my anger's in tact
You can't be me and I can't be you
Just take one look and you'll know it's true
A dreadful night, let my soul consume
So everybody, everybody in the room

Be very afraid
Be very afraid

I'm a combat ghost!
Destroyed at all!
You can't be me and I can't be you
Just take one look and you'll know it's true
A dreadful night, let my soul consume
So everybody, everybody in the room
You can't be me and I can't be you
Just take one look and you'll know it's true
A dreadful night, let my soul consume
So everybody, everybody in the room
(Snap, snap)

Be very afraid
Be very afraid
(Be very afraid)
Be very afraid
(Evil laughing)
Be very afraid
(More evil laughing)
Be very afraid
(Evil laughing)
