

Biggest Cell Ever

Tryhardninja

It's evolution
No use to complain
Survival of the biggest
And I'm the top of the chain
Every minute
Larger than before
Can't fight this hunger for more

It's time to split the atoms
And dominate your power
I'll drain it all your curtain call
You wane as I devour
I'll drain it all
I'll drain it all

I started small but I grow bigger now
I got a taste for everything that's round
All you can eat and I'm about to burst
But I won't stop till I consume the earth
The earth
And be the biggest cell ever
Ever
Ever
Ever
And be the biggest cell ever
Ever
Ever
Ever

Desire to feed
Is clouding my mind
It's like starvation
It's guiding me all the time
And now my body colossal in scope
Expanding out of control

It's time to split the atoms
And dominate your power
I'll drain it all your curtain call
You wane as I devour
I'll drain it all
I'll drain it all

I started small but I grow bigger now
I got a taste for everything that's round
All you can eat and I'm about to burst
But I won't stop till I consume the earth
The earth
And be the biggest cell ever
Ever
Ever
Ever
And be the biggest cell ever
Ever
Ever
Ever

This is it, total eclipse
Swiftly the moon has vanished
Send the world to the abyss
I'm the eater of planets

I started small but I grow bigger now
I got a taste for everything that's round
All you can eat and I'm about to burst
But I won't stop till I consume the earth
The earth
And be the biggest cell ever
Ever
Ever
Ever
And be the biggest cell ever
Ever
Ever
Ever
