

# Bringing Us Home

Tryhardninja

There is a legend  
A legend born long ago  
About a wicked  
A wicked man no one knows  
Went and unraveled  
6 innocent little souls

The souls found bodies  
The bodies started to move  
Some say they still walk  
Walk the halls staying from view  
I got a secret  
That I am here to tell you  
That place is this very place  
And all the stories are true

This world's a scary place  
We're not monsters, just changed  
Bigger hands for grabbing a hold  
We were lost to foul play  
But we got an upgrade  
Lots more teeth for eating you whole

Here comes another chapter  
Your heart is beating faster  
Cause you're the one we're after  
Five Nights at Freddy's 4  
Thank you for bringing us home

We were just like you  
Like you just playing a game  
That's when the wicked  
Wicked man led us astray  
Without a warning  
Our lives have been rearranged

As for our story  
The story's not over yet  
There's still one secret  
One secret left to be said  
Tonight when you are  
Safely tucked into your bed  
Close all the doors that you want  
We're already in your head

This world's a scary place  
We're not monsters, just changed  
Bigger hands for grabbing a hold  
We were lost to foul play  
But we got an upgrade  
Lots more teeth for eating you whole
