

C.O.D. Freestyle

Tryhardninja

You underestimated
And the now the wind is fading
I'm handing out defeat
Dead lobby like it's contagious
When it comes to C.O.D.
There's no easy way to say it
Come one come all
Deadly free for all
My gun doesn't play any favorites

Doesn't play any favorites
No easy way to say it
Come one come all
Deadly free for all
My gun doesn't play any favorites

Doesn't play any favorites
No easy way to say it
come one come all
Deadly free for all
My gun doesn't play any favorites

All these rounds trapped in a chamber
But what is life behind bars
So safety's off
Set them free
But they won't get very far
the enemies catch them all
you can call that Pokemon
and I stay lighting up that lobby
like I'm that Charizard
Cause without a doubt
I'm the first draft pick
Newbie you're the wrong one
I'm a star
You make sure that the bench is a warm one
Meet me in S and D
and complain it was a short one
Maybe you should try to get game time
in game types with respawns

On second thought
Forget it man
That's not gonna help
'Cause you a freshman
I'm valedictorian-esque
Because that's me in that chopper
destroying everyone else
K-killing you as you respawn
That means you fresh to death
B-better run or get chewed up
because I'm armed to the teeth
G-got an army of shooters
I run real smart with all beasts
Don't have to take that as truth though
Don't have to forfeit to me
Just don't get mad when you grab that back end of K/D

and I make opponents look foolish
So press record and don't stop
Enemies must be getting DDossed
'Cause they scream hacker a lot
'Cause it's easy mode on
The others look like recruit Black Ops bots
While most of your game footage got that work kill cam on the top
Just stop
