

Deep Dive

Tryhardninja

I take a deep, deep dive...
Into the ocean life...
There's a world that moves just
Right under the tide
But I'll never know unless
I look inside
I take a deep, deep dive

Taking a step
Into the depth
I'm an explorer
Submarine life
Flow through the tide
Under the water
Hope to survive
O2 supply
Both getting shorter
Search and repair
Resources rare
Keep them in order
(Wooh wooh)
Watch the swaying, glow...
(Wooh wooh)
Can I make it here alone...

Take a breath and...
Don't let go
Don't let go

I take a deep, deep dive...
Into the ocean life...
There's a world that moves just
Right under the tide
But I'll never know unless
I look inside
I take a deep, deep dive...
Deep dive

Under the waves
I am surrounded by life forms
Light getting scarce
Slowly I glide through the unknown
Crashed now I'm building the framework
Cause this is my new home
Uncharted territory
Mine to behold
(Wooh wooh)
Watch the swaying, glow...
(Wooh wooh)
Can I make it here alone...

Take a breaths and...
Don't let go
Don't let go

I take a deep, deep dive...
Into the ocean life...

There's a world that moves just
Right under the tide
But I'll never know unless
I look inside
I take a deep, deep dive...
Deep dive

Found a world below
The surface
Unearthly the more
We search it
Worth it
We will find a purpose
Lurking deep beneath
The current
Hoping and focused
To make it alive
Only be sure if I go up, inside
Feeling my life
On the verge
Only making it worse
Better chill every nerve
And survive
Seeing demons under me
And noticing
I'm in their sight
Make it back up to the top
Often limited
In time
Rise quicker
Imma swim through a new world
Beneath the river
Just to grab another breath
But I figure

I take a deep, deep dive...
Into the ocean life... (life)
There's a world that moves just
Right under the tide
But I'll never know unless
I look inside
I take a deep, deep dive...
Deep dive
