

# Feed the Need

Tryhardninja

Breathing, tell me am I breathing  
'Cause I cannot see through all this smoke inside my hell  
The demons filter my decisions as I awake the secrets sleeping dormant in myself

There's no going back again  
Embrace my new bulletproof skin

Feed the need, the energy  
Drain it 'til it's gone  
Yeah the power lies in my hands,  
But the change is in my bones  
Feed the need, the energy  
And everybody now  
Will know my name even if I have to carve it into this town

Carve it into this town...

Changes, a city screams for changes  
Break out of the chains and help me write history  
Rejoice, freedom is in my voice  
Blasting through the white noise playing inside your TV

There's no going back again  
Embrace my new bulletproof skin

Feed the need, the energy  
Drain it 'til it's gone  
Yeah the power lies in my hands,  
But the change is in my bones  
Feed the need, the energy  
And everybody now  
Will know my name even if I have to carve it into this town

Carve it into this town  
Carve it into this town

There's no going back again  
Embrace my new bulletproof skin

Feed the need, the energy  
Drain it 'til it's gone  
Yeah the power lies in my hands,  
But the change is in my bones  
Feed the need, the energy  
And everybody now  
Will know my name even if I have to carve it into this town

Carve it into this town [x4]
