

Follow Me

Tryhardninja

He's been waiting, abandoned and patient, so long (long)
A savage masked ghost story from the past he roams (roams)

He said follow me
Follow follow follow

Over 30 years ago
When he took them down below
And tonight he walks again
So step inside enjoy the show

Follow me
Then you'll see
Follow follow follow follow,
But the truth is hard to swallow
Follow me
Then you'll see
Follow follow follow follow follow
Follow me
See a nightmare in action

Follow [repeat]

Deeds so rotten came back to haunt him they know (know)
Forever changed, he wears his spring locked grave alone (alone)

He said follow me
Follow follow follow

All the horrors have been sealed
Boarded up they were concealed
But it's time for the real monster's face to finally be revealed

Follow me
Then you'll see
Follow follow follow follow,
But the truth is hard to swallow
Follow me
Then you'll see
Follow follow follow follow follow
Follow me
See a nightmare in action
