

## From the Dark

Tryhardninja

Surrounded on all sides by  
Locked doors with no key  
But through the cracks, I see you  
Reaching out to me

Right now it might seem hopeless  
But when you're close, I know that  
We will make it through, together  
Of course, we both go way back  
But what I'm tryna say is that  
We hold each other down, forever  
Forever

The light inside your heart  
Lifts me farther  
You pull me from the dark  
The dark, the dark  
The love inside your soul  
Is my armor  
You pull me from the dark  
The dark, the dark

Even when I'm lost in  
A whole new world alone  
Your trust is like an anchor  
Guiding me back home (back home, yeah)

Right now it might seem hopeless  
But when you're close, I know that  
We will make it through, together  
Of course, we both go way back  
But what I'm tryna say is that  
We hold each other down, forever  
Forever

The light inside your heart  
Lifts me farther  
You pull me from the dark  
The dark, the dark  
The love inside your soul  
Is my armor  
You pull me from the dark  
The dark, the dark

Pull me from the dark

Don't let me go, don't let me go  
Don't let me go, don't let me go  
Don't let me go, don't let me go  
Pull me from the dark
