

Hide And Seek

Tryhardninja

Home in the darkness one more time
Scared and alone cause at night they arrive
With their sharpened teeth
To play hide and seek
Under my bedframe I explore
Try to avoid the... monsters at my doors
Don't look they're close
Playing hide and seek

I only got
Only got one light
Shine in their eyes
They're coming after me
I only got
Only got one light
Keep them away
Help me I'm losing sleep

Voices in my head visit me again
Every night I'm scared to go to bed
Play hide and seek with my nightmares
Play hide and seek with my nightmares
Tell me what is real running through the trees
My stereo plays a melody
Play hide and seek with my nightmares
Play hide and seek with my nightmares

Hurry rewind it
Let it play
Trying to get through
This cat and mouse game
Inside my head
Playing hide and seek

I only got
Only got one light
Shine in their eyes
They're coming after me
I only got
Only got one light
Keep them away
Help me I'm losing sleep

Voices in my head visit me again
Every night I'm scared to go to bed
Play hide and seek with my nightmares
Play hide and seek with my nightmares
Tell me what is real running through the trees
My stereo plays a melody
Play hide and seek with my nightmares
Play hide and seek with my nightmares

My mind flashes through the past while lastin'
Through my own nightmares, rat and cat are castin'
All the games we play, the theater haunts the prey
Through the dark gotta find a way
Father doesn't understand the pain

Every night gets worst Imma go insane
The deep shame flashbacks screamin' out my name
Flashlight shine bright till they're M.I.A
I gotta wonder off the path to discover the wrath
Then run it back five nights to uncover the mask
Don't need a map matter of fact, what's a mouse to a trap?
I'm gonna be runnin' to the articles that give us the facts
The animatronics run a carnival of terror in mass
I'm havin' to take all of my faith and fill my glass to pass
It's hide and seek don't make a peep or it'll be your last
One spark gotta make it fast or we crash, can we make it back

Can I make it back
Yeah

Voices in my head visit me again
Every night I'm scared to go to bed
Play hide and seek with my nightmares
Play hide and seek with my nightmares
Tell me what is real running through the trees
My stereo plays a melody
Play hide and seek with my nightmares
Play hide and seek with my nightmares
