

Hit The Bell

Tryhardninja

Subscribing to a channel used to be enough
I posted songs to see then and you showed them love
But these days YouTube case making it really tough
For you to find my videos as this giant website grows

But there is something
That you can do to help

Just hit the bell
If you think I'm doing well
When I write all of these songs
And you wanna hear them all
Subscribe and hit the bell
Otherwise YouTube won't tell
You when I post a new one
One click and then you done
Just hit the bell

Then YouTube promises to let you know
Every time I post a brand new music video
Cause all my work is wasted if you miss the show
Yeah I get requests all day about stuff I've already made

But there is something
That you can do to help

Just hit the bell
If you think I'm doing well
When I write all of these songs
And you wanna hear them all
Subscribe and hit the bell
Otherwise YouTube won't tell
You when I post a new one
One click and then you done
Just hit the bell

It's super easy and the best part it is free
Just hit the bell
Cause writing and recording whole song about a stupid little bell is getting
count for something

Just hit the bell
If you think I'm doing well
When I write all of these songs
And you just gotta hear them all
Subscribe and hit the bell
Otherwise YouTube won't tell
You when I post a new one
One click and then you done
Just hit the bell

Hit it, click it, punch it, slap it?
Smash it, high-five it, whatever you wanna do
Just hit the bell down there
Hit it! Hit it!
Yeah, you, you listening to the song
Hit the bell

Thank you!
