

I Got No Body

Tryhardninja

The elevator takes me down into the dark
The robots are alive and so my nightmare starts
I hear a friendly voice that says she'll keep me safe
But still I'd be a liar if I said I weren't afraid

She winds me up, she leads me down a hopeless road
And I can't trust nobody
I'm her puppet now, told where to go
And I can't trust nobody

I got no, I got no, I got no... body
I got no, I got no, I got no... body
I got no, I got no, I got no... body
I got no, I got no
Got nobody they're inside me

I got no, I got no, I got no... body
I got no, I got no, I got no
I got no, I got no, I got no... body
I got no, I got no
Got nobody they're inside me

How can I hide when they are always watching me?
Those glowing eyes want to scoop me out like ice cream
Controlled shocks will no longer keep them in their place
This circus underground won't let me get away

She winds me up, she leads me down a hopeless road
And I can't trust nobody
I'm her puppet now, told where to go
And I can't trust nobody

I got no, I got no, I got no... body
I got no, I got no, I got no... body
I got no, I got no, I got no... body
I got no, I got no
Got nobody they're inside me

I got no, I got no, I got no... body
I got no, I got no, I got no
I got no, I got no, I got no... body
I got no, I got no
Got nobody they're inside me
