

I'm On It

Tryhardninja

I'm so, I'm so, I'm so on
I'm so, I'm so, I'm so on it
Target found and target locked
Hit you like a comet
Enemies run away so quick
You can call them Sonic
Another season, it's a sequel
Another win, I'm on it

You should know by now that this is how it goes
One-shot got you tilted, back to the bus you go
Two shots like a tower, my streak about to grow
Three shots, lobby's buried, like snowy greasy grove

Yo, when I played your career took a skydive
Starting up the game, do you hear when I snipe like
I'm working hard, it appears you want to glide by
Ha, nice try, near the bush but my eye's wide
Open, got supply drops for primetime
When the storm closes, then you wonder why
I'm golden like a disco, I shine bright
See you by the retail row, and the time's right

Snipe you through that window (I'm on it)
Spot you where you tiptoe (I'm on it)
Dancing like a disco (I'm on it)
Anything it takes to win
You can keep that L
I'm on it

(I'm on it)
I'm on it

You should know by now that this is how it goes
One-shot got you tilted, back to the bus you go
Two shots like a tower, my streak about to grow
Three shots, lobby's buried, like snowy greasy grove

Now we coming in quick from the top of the drop
Yeah we never stop, never take a loss
If you cross us, you getting shot
Watch you pop, taking what you drop
You'll be logging off right away
Yeah we got the sauce, and you getting tossed
And this is just the beginning attack
I promise you ain't winning, you in last
You don't wanna meet the wrath
See you run across the map
Headshots to the dome
Better know you're in fact out the match, yeah

Snipe you through that window (I'm on it)
Spot you where you tiptoe (I'm on it)
Dancing like a disco (I'm on it)
Anything it takes to win
You can keep that L
I'm on it

(I'm on it)

I'm on it

I'm so, I'm so, I'm so on

I'm so, I'm so, I'm so on it

Target found and target locked

Hit you like a comet

Enemies run away so quick

You can call them Sonic
