

I'm the Forager

Tryhardninja

The trees by the bay
Topple and fall
They bow to my swing
Their wood now my own like woah
Woah

I feel strong as new skills
Surge through my hands
To grab what I want
And transform this land
Like woah
Woah

My inventory up
And I
And I
I, I wanna know
How far
How far
This world of mine
Can grow

Collecting in all
It all
Collecting in all
It all
I'm the Forager, yeah
I'm the Forager, yeah

Collecting in all
It all
Collecting in all
It all
I'm the Forager, yeah
Build my own world from here to there

I use what I gather
Conquer new threats
Unlock more secrets
Then do it again
Like woah
Woah

Each new horizon's
And making me guess
I can't help but wonder
What could be next
Like woah
Woah

And I
And I
I, I wanna know
How far
How far
This world of mine
Can grow

Collecting in all
It all
Collecting in all
It all
I'm the Forager, yeah
I'm the Forager, yeah

Collecting in all
It all
Collecting in all
It all
I'm the Forager, yeah
Build my own world from here to there

Just one more chest
One more key
One more bridge
Where does it lead?
One more biome
One more swing
Of one more sword
My world's growing

Just one more chest
One more key
One more bridge
Where does it lead?
One more biome
One more swing
Of one more sword
Can't stop

Collecting in all
It all
Collecting in all
It all
I'm the Forager, yeah
I'm the Forager, yeah

Collecting in all
It all
Collecting in all
It all
I'm the Forager, yeah
Build my own world from here to there

Just one more chest
One more key
One more bridge
Where does it lead?
One more biome
One more swing
Of one more sword
Can't stop
Collecting in all
