

In a Dark World

Tryhardninja

In a place, in a place, in a place you've never been before
In the dark you and I searching for something familiar
And far off
Far off in the distance
Countless souls are at risk
Where does
Our determination lie?

Oo-oo, oo-oo
We can be the difference they need
Oo-oo, oo-oo
Be the strength to balance their weak

We can be heroes
Heroes in a dark world
Fighting for kindness
Inside of every heart
When destiny calls
Out for us
We can be heroes
We can be heroes
In a dark world

I don't know, I don't know what if I'm in way over my head?
It's so hard to think I could be the one to save all of them

Oo-oo, oo-oo
We can be the difference they need
I hope so
Oo-oo, oo-oo
Be the strength to balance their weak

We can be heroes
Heroes in a dark world
Fighting for kindness
Inside of every heart
When destiny calls
Out for us
We can be heroes
We can be heroes
In a dark world

The balance of light and dark
So walk with me, walk with me on the edge of both
Restore the kindness torn apart
So walk with me, walk with me till it turns to gold
And then

We can be heroes
Heroes in a dark world
Fighting for kindness
Inside of every heart
When destiny calls
Out for us
We can be heroes
We can be heroes
In a dark world
