

In Charge

Tryhardninja

Click, click, click, click
All you hear is click click
every day and every night

Click, click, click, click
All I do is dig, dig
Terraform and visualize

And structures stand cover the land
They span from sea to sea
Click click work even while I sleep
'Cause what I'm dreaming is what I'm building

In charge of building the world
Lay down the blocks and watch it grow
In charge of building the world
Yea
In charge of building

Tonight I plan and stand alone
In charge of building the world
As the one
I'm the one
In charge of building the world

Click, click, click, click
All you hear is click, click as another skyline grows
Click, click click click
Cities are so big, big
Renovating coast to coast

And structures stand cover the land
They span from sea to sea
Click click work even while I sleep
'Cause what I'm dreaming is what I'm building

In charge of building the world
Lay down the blocks and watch it grow
In charge of building the world
Yea
In charge of building

One block, two block, three block, four
Five block, six block, seven block, more
One block, two block, three block, four
Five block, six block, seven block, more

In my hand I hold the key
(Ah-ah-ah-ah-ah-ah-ah-ah)
No rest 'til my work is done
(Ah-ah-ah-ah-ah-ah-ah-ah)
Endless possibilities
(Ah-ah-ah-ah-ah-ah-ah-ah)

I-I-I-I-I am the one
In charge of building the world

One block, two block, three block, four
Five block, six block, seven block, more

One block, two block, three block, four
Five block, six block, seven block, more
