

It's All a Blur

Tryhardninja

I wanna lose controls
Blurry vision, flashing lights
Neon colors rushing by
Accelerate and move the soul
Only make for the thrill
No one got to stand there still

Flying high by your side
Catching gold in the sky

It's all a blur
That's the way I like it here
With you
It's all a blur
It makes my heart race
And now I know it's true
It's worth to live this life
At the speed of light
It's all a blur
Woah oah
It's all a blur

I would be sad to see you go
So run like you're about
To get caught
Promise me
It will never stop

Flying high by your side
Catching gold in the sky

It's all a blur
That's the way I like it here
With you
It's all a blur
It makes my heart race
And now I know it's true
It's worth to live this life
At the speed of light
It's all a blur
Woah oah
It's all a blur

It makes my heart beat beat beat faster
When I'm with you chasing after
And flirting with my own disaster
But I like it
Yeah I like it

It makes my heart beat beat beat faster
When I'm with you chasing after
And flirting with my own disaster
But I like it

Cause it's all a blur
That's the way I like it here with you
It's all a blur

It makes my heart race
And now I know it's true
It's worth to live this life
At the speed of light
It's all a blur
Woah oah
It's all a blur
