

Just An Attraction

Tryhardninja

I knew you couldn't stay away
Forgotten for so long
I am the hunter, you're the prey
The white eyes at your door

It's not a game, it's a dangerous thing
Waking up ancient history
A nightmare we're both forced to repeat...
(I've been waiting for you)

They left you in charge but in here I call the shots
Tonight you're staying with a monster in the dark
So go check your screens
Play sounds or scream
You're just an attraction
In my amusement park...

Search through the static for my face
Power's out so reboot!
Hallucinations slowly fade
The clock won't save you

It's not a game it's a dangerous thing
Waking up ancient history
A nightmare we're both forced to repeat...

Dressed like a guard better reconsider
If you're the hired gun then I'm the trigger

They left you in charge but in here I call the shots
Tonight you're staying with a monster in the dark
So go check your screens
Play sounds or scream
You're just an attraction in my amusement park

I knew you couldn't stay away
I am the hunter you're the prey

They left you in charge but in here I call the shots
Tonight you're staying with a monster in the dark
So go check your screens
Play sounds or scream
You're just an attraction in my amusement park
