

Let Me In

Tryhardninja

I feel awful when you look at me that way (Way)
There's no reason to see through a masquerade
But your glances give away that you resent me
Always looking for some flaw that's in me
It just can't be all this bloodlust on my face

'Cause I'm, I'm just a human in my skin
(Doors open for a friend)
That would be neighborly of you
Sharing is caring, let me in
You know it's for the best
Us humans gotta stick together
Or there goes the neighborhood

A wolf that scratches your door (No, that's not me)
I'm just a sheep that needs help (In the lobby)
A helpless cannibal lamb (And I'm starving)
Let me in

I tried to soothe you by disguising, but alas
You do see me through the cracks inside the mask
But I can not stop until you let me enter
Will come back as an improved pretender

With so many others like me
And when you ask, we'll all say

I'm just a human in my skin
(Doors open for a friend)
That would be neighborly of you (Of you)
Sharing is caring, let me in
You know it's for the best
Us humans gotta stick together
Or there goes the neighborhood

Good afternoon, you're lookin' tired by now
Guess you figured out there's no room for mistakes
No time for a break
For everyone's sake, check the faces to make damn sure
I'm not a monster
I'm not another ruthless imposter
Just let me in, how can I convince you?
This is my skin, now let me take yours
Did you doublecheck the details?
Am I too pale? Do I got the right hair and the fingernails?
Do you wanna put your life at the front door?
Just wanna get inside, I promise it'll be alright
Make up your mind 'cause I don't wanna wait anymore

Trust me

I'm just a human in my skin
(Doors open for a friend)
That would be neighborly of you (Of you)
Sharing is caring, let me in
You know it's for the best
Us humans gotta stick together

Or there goes the neighborhood

A wolf that scratches your door (No, that's not me)

I'm just a sheep that needs help (In the lobby)

A helpless cannibal lamb (And I'm starving)

Let me in

Let me in
