

# Man And Machine

Tryhardninja

Remember this field well  
This is where we excel  
We're foot soldiers on our shoulders  
Empires rose and cities fell

We got big technology  
But logistically war remains unchanged  
The winner will be the one that gets to fill more empty graves

And we're up to the task believe me  
My pulse blade helps with deleting  
Enemy morale is fleeting  
Parkour tidal wave stampeding

Let's get this beating done  
Think I'm gonna need myself a bigger gun  
It's a bird  
It's a plane  
Look up and see  
Here it comes

Become one  
Fuse steel and bone  
Become one  
Honor like stone  
Become one  
Push the threshold  
Become...  
Become...  
Become...  
Become one

The synergy illuminates  
Unites man and machine  
Heartbeat hardwired we're standing tall  
Together we're complete  
Through fire we walk like titans  
Locked frequencies  
Man and machine...  
Man and machine...  
Man and machine...

Stand by for titan fall  
Can you believe what your eyes just saw  
Summoning the mighty lightning must be Thor  
It's ripping through the skies like a violent claw  
Bow down it's a metal Hulk  
You know you better work real hard not to tick him off  
And Iron Man but with bigger balls  
Avengers on the front looking to stall a pulse

Powerfull  
Power core  
Power armor  
Minotaur  
Seismic activity of mythic lore  
Is that an earthquake breaking down your door?

Domination at it's pinnacle  
Mechanical Apocalypse it's biblical  
And once he's under my control  
Things will get really critical

Become one...  
Man and machine...  
Become one...

To worlds become one  
I take my throne comfortably  
A walking robot tank  
With me in pilot seat  
Feel electricity building, the ion energy  
Through my veins coarsing  
We're chosen  
Legions will fall in debris  
Scorching opponents one touch  
They're torching in torment  
We're ronin warriors  
Holstered swords exert force with no warning  
Look out 'cause titans are falling  
Weather forecast is bleak  
In the eye of a storm with  
Man and machine

The synergy illuminates  
Unites man and machine  
Heartbeat hardwired we're standing tall  
Together we're complete  
Through fire we walk like titans  
Locked frequencies  
Man and machine...  
Man and machine...  
The synergy illuminates  
Unites man and machine  
Heartbeat hardwired we're standing tall  
Together we're complete  
Through fire we walk like titans  
Locked frequencies  
Man and machine...  
Man and machine...  
Man and machine...
