

# Nightmare By Design

Tryhardninja

Come down visit the circus  
Take a break from the surface  
In our twisted factory  
You are the spare part we need

Gears grind spring locks are unwound  
Bloody belt spinning 'round 'round  
You don't know what we've been through  
Awful fate we didn't chose

It's a blueprint for fear a dream left rotting  
There's a little of me in everybody  
Whoa there's no where left to hide  
The assembly line  
Keeps on churning until we are one  
Nightmare by design

Left here to rot in our cells  
We reinvented ourselves  
But before we can escape  
Our mask could use an upgrade

Our souls prisoned and fractured  
Fuse now dread manufactured  
Don't hold it against us please  
When you're part of the machine

It's a blueprint for fear a dream left rotting  
There's a little of me in everybody  
Whoa there's no where left to hide  
The assembly line  
Keeps on churning until we are one  
Nightmare by design

When you're part of the machine
