

# Portals Up

Tryhardninja

Instant pit,  
Pit in my stomach  
When I wake up and  
I don't know where I am

There's a voice,  
A voice that commands me  
To solve puzzles  
That I don't yet understand

Where do I go,  
In this high tech trap?  
What do I gotta do to get out,  
Get out?

There's one thing I know,  
I won't be your lab rat!  
A mindless pawn for pushing around,  
Around!

So portals up!  
(Set me free!)  
Portals up!  
(Set me free)  
Portals up!  
(Set me free)  
The power's in my hands,  
So portals up!  
Tempted with cake,  
Cake if I solve it.  
But I find momentum  
'Cause my mind is still alive!

The answer's so so close,  
I just know it!  
I'll celebrate my freedom,  
Even if that cake's a lie!

Where do I go,  
In this high tech trap?  
What do I gotta do to get out,  
Get out?

There's one thing I know,  
I won't be your lab rat!  
A mindless pawn for pushing around,  
Around!

So portals up!  
(Set me free!)  
Portals up!  
(Set me free)  
Portals up!  
(Set me free)  
The power's in my hands,  
So portals up!  
Time after time...

And life by life...  
Science must be done,  
Learning has begun,  
For the good of everyone so-

Portals up!  
(Set me free!)  
Portals up!  
(Set me free)  
Portals up!  
(Set me free)  
The power's in my hands,  
So portals up!
