

# Revenge

Tryhardninja

It's time to go get your revenge  
So we back in the mine, got our pick axe swinging side to side, day and night  
This task a grueling one, hope to find some diamonds tonight, oh how they shine  
Then it's heads up, hear a sound you freeze up, turn around and look up, total shock fills your body,  
Is this the end?  
Can't believe it's you again  
I could never forget those eyes

'Cause baby tonight, the creeper's trying to steal your stuff again, again,  
again  
'Cause baby tonight, you grab your pick, shovel and bolt again, again, again  
And run, run, run until it's done, done, then you run, run, run until the sun  
Sun comes up in the morn'  
'Cause baby tonight, the creeper's trying to steal your stuff again, again,  
again

Just when you think you're safe, hear some hissing from right behind, escape denied  
That's a nice life you have, shame it's gotta end at this time, now you're mine  
Then he blows up, and your health bar it drops, you could use a 1-up, get inside don't be tardy,  
Now you're stuck in there, all alone in despair, half a heart is left now but don't die

'Cause baby tonight, the creeper's trying to steal your stuff again, again  
again  
'Cause baby tonight, you grab your pick, shovel and bolt again, again, again  
And run, run, run until it's done, done, then you run, run, run until the sun  
Sun comes up in the morn'  
'Cause baby tonight, the creeper's trying to steal your stuff again, again,  
again

Dig up diamonds, and craft those diamonds  
Looks like that armor's been exercising  
MLG Pro, that diamond sword  
Come at me bro, I got it forged  
Training under the torch light glow  
Hone that form now you're in the zone  
Creeper's out prowling, ready for the big fight  
Show them what it feels like  
Come on. Lets go!  
'Cause I'm a warrior baby through and through  
Take my revenge  
That's what I will do  
Bring it

You gotta fight baby tonight  
The creeper's trying to steal your stuff again  
It's time to grab your sword, armor and go  
It's time to go get your revenge  
And you fight, fight like it's your last night, then you fight, fight like i

t's for your life  
Time to show them your bite  
'Cause baby tonight, the creeper's trying to steal your stuff again, again,  
again  
'Cause baby tonight, the creeper's trying to steal your stuff again  
Swing your sword up high  
'Cause baby tonight, you grab your pick, shovel and bolt again  
Swing your sword down low  
It's time to go  
It's time to go  
It's time to go get your revenge
