

Running to Never

Tryhardninja

Triumph in our dreams
We want it all
Hearts lost in the moonlight
And off we go

Chasing stardust
Our wildest treasures
Or a mirage
Perfect intentions
But will we ever know
How to stop?
Running running

Are we running to never?
So blind we can't see
How close we get to the edge
Are we running to never?
A race against the horizon
We can't win
A fire burning bright
In our hearts tonight
Are we running to never?
Running to never

We can't build a staircase
To reach new heights
If we lose courage to step
Into the sky

Chasing stardust
We claw and push our way
To the top
Perfect intentions
But will we ever know
How to stop?
Running running

Are we running to never?
So blind we can't see
How close we get to the edge
Are we running to never?
A race against the horizon
We can't win
A fire burning bright
In our hearts tonight
Are we running to never?
Running to never

We keep on running running running
We keep on running running running
We keep on running running running
Yeah, yeahh
But

Are we running to never?
So blind we can't see
How close we get to the edge

Are we running to never?
A race against the horizon
We can't win
A fire burning bright
In our hearts tonight
Are we running to never?
Running to never
