

Search and Destroy

Tryhardninja

Started from the top, now we landed (Made it)
Bodies hit the ground, get the caskets (Whoa)
I'm John Wick, too quick for the masses (Look out)
You're locked up in a cage with an assassin (Ey)

I might catch you in my sniper's sight
Will make you rest in peace
If I see you on my property line
It'll be the last thing you see

I'm well versed in taking a life
When on my way to victory
The medal, the gold, and the crown
That's what I seek, the lead

I'm dancing so carefree
'Cause I know I'm deadly

Whoa, whoa
I, search and destroy
Whoa, whoa
I, search and destroy

Load up the shotty, it's time to get started
My SMG makes you dearly departed
What kind of knight leaves his castle unguarded?
Number 1 spot, I can't till I'm chartin', whoa

I'm shootin' and building and climbing, ey
Stay looting your stuff like a pirate, ey
I'm sneaking around deadly and silent, ey
Choosing the timing for violence, ey (Hold up)

Yeah you better lay low
When you're in the safe zone
If you like your head then go
Play another game so
I can't see you in scope
And put metal in yo dome

I'm dancing so carefree
'Cause I know I'm deadly

Whoa, whoa
I, search and destroy
Whoa, whoa
I, search and destroy
(Dancin', dancin')
Search and destroy
(Dancin', dancin')

When I find you, when I find you
When I find you I won't really have a choice
I'm the hunter, here beside you
Watch the horizon, I search and destroy
Search and destroy

Whoa, whoa
I, search and destroy
Whoa, whoa
I, search and destroy
Whoa, whoa (I'm gonna search and destroy)
I, search and destroy
Whoa, whoa
I, search and destroy
