

# Secure and Contain

Tryhardninja

Smoke  
When there's smoke and there's fire  
When they spread, then we stride  
We are there  
There's smoke  
G-g-ghosts  
Unexplained, unexplored  
We suppress and restore and we move  
Like we're ghosts

Yeah, dangers only we can know (know)  
Are running wild  
Are running wild  
I'll stop 'em like the scum that they are  
Supernatural  
Blazing fires, oh

We can't just let it burn  
The world is waiting for someone  
Or something to come and  
Extinguish the flames  
So we protect and serve  
Lending our lives on the line  
To confine and unite it  
Secure and contain

Take  
Protocol, classified  
When there's a breach  
In the night  
Who will take  
Take back control  
And hold  
The time is now  
Do or die  
Like a damn  
Mobilise  
Here we hold the line  
Before the fight takes its toll

We can't just let it burn  
The world is waiting for someone  
Or something to come and  
Extinguish the flames  
So we protect and serve  
Lending our lives on the line  
To confine and unite it  
Secure and contain

If you don't know it exists  
It's like the fire was never lit  
(Shhh...)

We can't just let it burn  
The world is waiting for someone  
Or something to come and  
Extinguish the flames

So we protect and serve  
Lending our lives on the line  
To confine and unite it  
Secure and contain  
(Whoa, whoa, whoa)  
Secure and contain  
(Whoa, whoa, whoa)  
Secure and contain  
  
(Shhh...)
