

Shadows

Tryhardninja

There's poison,
There's poison in the streets,
Dripping for the highest tower;
The countdown,
The countdown on their greed,
Near zero as we grow in numbers;

Revolution!
Revolution!
A million hearts will always be stronger than any gun!
We dissapear, then unite, like shadows!
We dissapear, then unite, like shadows, shadows, shadows!
We dissapear, then unite, like shadows!
We dissapear, then unite, like shadows, shadows, shadows!

A sacred,
A sacred brotherhood,
Runs deeper than our faded blood ties;
The whispers,
The whisper of the poor,
Will turn in to a nation's war cry;

Revolution!
Revolution!
A million hearts will always be stronger than any gun!
We dissapear, then unite, like shadows!
We dissapear, then unite, like shadows, shadows, shadows!
We dissapear, then unite, like shadows!
We dissapear, then unite, like shadows, shadows, shadows!

All for one and one for all,
Together we're unstoppable
All for one and one for all,
Together we're unstoppable
All for one and one for all,
Together we're unstoppable
All for one and one for all,
Together we're unstoppable

We dissapear, then unite, like shadows!
We dissapear, then unite, like shadows, shadows, shadows!
We dissapear, then unite, like shadows!
We dissapear, then unite, like shadows, shadows, shadows!

All for one and one for all,
Together we're unstoppable
All for one and one for all,
Together we're unstoppable
We're history
