

Snake Charmer

Tryhardninja

Slithering across like a monster
I'm the predator, you're the fodder
Story old as time
Only room here for the fittest to survive
You make one wrong move than believe this
I'll be there to pick up the pieces
You're nothing but prey
Everybody's gotta eat to stay alive

I glow with overdrive
My coil will crush
Another victim of my poison touch
I'll be there to dine on what remains
Victory is mine, how good it tastes
I promise your life won't go to waste

When it's over
In a flash

Even when I'm small, I'm a problem
Venom in my skin, there's no stopping
Running out of luck
Got you scattered as my body starts to morph
All your deaths will serve as reminders
That you're just the snake, I'm the charmer
Leave you hypnotized
Always a step ahead, I'll cut you off

I glow with overdrive
My coil will crush
Another victim of my poison touch
I'll be there to dine on what remains
Victory is mine, how good it tastes
I promise your life won't go to waste

When it's over
In a flash
