

Spider's Web

Tryhardninja

There's nothing else that I want more
Than to save you
But they put binds on my hands
And now I fight knowing it's wrong
Cause I can't change
Even if they can't understand

Why I show up
When you need help
Even if it's bad
For myself

I'm caught inside a spider's web
That I tangle and spin myself
And my own trap it has become
I'm wrapped up in a spider's web
Gets thicker the more that I try to help
Still I tear the threads hoping they come undone
Inside a spider's web
Inside a spider's web

There's nothing I wouldn't give
If I sensed your
Fading pulse needed me
There are no restraints I wouldn't break
If I knew that
You heart held on by a string

That's why I show up
When you need help
Even if it's bad
For myself

I'm caught inside a spider's web
That I tangle and spin myself
And my own trap it has become
I'm wrapped up in a spider's web
Gets thicker the more that I try to help
Still I tear the threads hoping they come undone
Inside a spider's web
Inside a spider's web

They say what I do is wrong
But for you
I'll make that sacrifice
Like heroes do

I'm caught inside a spider's web
That I tangle and spin myself
And my own trap it has become
I'm wrapped up in a spider's web
Gets thicker the more that I try to help
Still I tear the threads hoping they come undone
Inside a spider's web
Inside a spider's web
