

# Still Alive

Tryhardninja

Where we go, there are monsters wandering  
Where we roam, there's no other way  
If you visit, there is no coming back, no  
'Cause the darkness won't let you escape

Hiding behind the masks  
Gifts of life that come back to haunt you  
Secrets that still here last  
Still alive

Still alive  
Looking for vengeance nightly  
You can hide  
Still in your nightmares, we'll be  
Taking joy from your cries, bites from your mind  
Night after night  
Still alive  
What remains of us is still alive

La, la, la, la, la, la  
La, la, la, la, la, la la, la, la  
La, la, la, la, la, la  
La, la, la, la, la, la la, la, la

Eyes closed, never getting rest  
Nightmares deep inside your head  
Now you see what we see when we go to bed  
Knives and teeth, deleted dreams  
That all lay dead

'Cause now it's  
Blood on the checkered floor, blood stains on the checkered past  
Passed down to our souls, cut down everything we had  
Springlocked and cast out, the party will never last  
Step into darkness, will show you what we have planned

Hiding behind the masks  
Gifts of life that come back to haunt you  
Secrets that still here last  
Still alive

Still alive  
Looking for vengeance nightly  
You can hide  
Still in your nightmares, we'll be  
Taking joy from your cries, bites from your mind  
Night after night  
Still alive  
What remains of us is still alive

Looking for vengeance nightly  
You can hide  
Still in your nightmares, we'll be  
Taking joy from your cries, bites from your mind  
Night after night  
Still alive  
What remains of us is still alive
