

The Child Inside

Tryhardninja

You see me like a monster, everyday you pass and stare
The cross I bear, it pulls me under
Tragedy that scars and stains and marks my face
I'm just another tale, an urban myth, some legend used to scare
the kids
A ghost that roams the halls at night, how long 'til you see the
child inside?

The child inside, the child inside
The, the child

You treat me like an outcast, all you see are the years gone by
that were unkind
And now this frayed mask that's keepin' me inside and chained
scars you away
But in the blackest pit, behind the eyes, there I still am, here
I'm trapped tonight
A ghost that roams the halls at night, hoping that you'll see the
child inside

The child inside, the child inside
The, the child, the child

Here I stay locked away, deep inside every night
Here I stay locked away, deep inside, oh, I'm the child inside
Oh, oh, oh, oh, oh, oh, the child inside, oh, oh
Oh, oh, oh, oh, oh, oh, the child inside, the child inside

The child inside, the child inside
The child inside
