

# This Is Delirium

Tryhardninja

A roller-coaster hell on wheels  
I ride to stay alive  
So step right up and give it whirl  
Living on the edge of Armageddon with a smile  
This ain't your grandma's end of the world

A death-defying cowboy  
Grinding as I deploy  
Grenades always keep them stocked full  
The breaths you take are final  
I take aim with a vinyl  
Disc gun to split your mutant skull  
This is Delirium  
Let's hit Overdrive  
This is Delirium  
Apocalypse in style  
Amps up to 11, ruler of these streets  
Stay surfing above waves of monsters and freaks  
This is Delirium

You might be the one Overcharged  
But I'm still too fast  
Leave sparks behind as I disappear  
Don't challenge me, I'll put you down  
No questions asked  
My crowbar does the talking 'round here

Aw, wh-what is that?  
How could you be so ugly?  
What is that growing on your face right there?  
That's not right  
I mean, I'm no plastic surgeon  
But I might have something here to help you out  
Wait, wait, wait... hold on...  
There's my hammer!
