

Turn It Up

Tryhardninja

What if
I wrote this song about you
And it turned out that every word is true?
What if
Last night I had a vision
Where I saw you sitting silent in your room?

So, so sick and tired of feeling out of place
Got your headphones on with the boosted bass
You're not alone right now
Just hear my voice cut through the noise when you play this song loud

Turn it up, turn it up
Whenever you're fallin' hit play
Turn it up, turn it up
If you feel you're too far away
Turn it up, turn it up

We all want to feel connected
Like magnets that were pulled too far apart
What if
The distance didn't matter
And our words could fix all lonely hearts?

Love in the harmony and you find a way
To broadcast to the world the melody that plays
You're not alone right now
Just hear my voice cut through the noise when you play this song loud
(Loud, loud, loud, loud)

Turn it up, turn it up
Whenever you're fallin' hit play
Turn it up, turn it up
If you feel you're too far away
Turn it up, turn it up

Turn it up
You can start right now break the silence down
Turn it up
You are not alone when you play this loud
(Loud, loud, loud, loud)

Turn it up, turn it up
Whenever you're fallin' hit play
Turn it up, turn it up
If you feel you're too far away
Turn it up, turn it up

Turn it up, turn it up
If you feel you're too far away
Turn it up, turn it up
