

# Undead You

The beach isn't the best place to find a diamond  
So the cave is where I go  
I'm lighting my torch and then I'm mining the cave  
My treasure hunt is going slow  
I hear a growl behind me and I'm up on my feet  
But for reasons I can't explain - no  
I don't flee - Stop - I turn around and my heart jumps  
We're standing face to face  
And now I'm singing like...

Yeah I know this is real weird  
I should be scared but I feel differently  
Could we be destined to be?  
No - This is crazy, don't mind me  
But wait - are you starting to blush?  
Maybe this could work if you just never eat me  
Could we be destined to be?  
Could we be destined to be?

I'm in love with the undead you  
It's unlikely but it is true  
Even though you think that I'm food  
I'm in love with a zombie  
I built a cage for you in my room  
We live together as our love blooms  
You are just the perfect shades of green and blue  
I'm in love with a zombie

Oh-I Oh-I Oh-I Oh-I  
I'm in love with a zombie  
Oh-I Oh-I Oh-I Oh-I  
I'm in love with a zombie  
Oh-I Oh-I Oh-I Oh-I  
I'm in love with a zombie  
You are just the perfect shades of green and blue  
I'm in love with the undead you

One week in, we let our story begin  
I love you more and more each day  
You're not like the others, you don't care about looks  
I know that you want me just for my brain  
You chase for hours and hours, the ones you want to devour  
It's really cute how you run after and play  
I don't care if you're grabby, you tickle my fancy  
Even if our love's a little bit strange  
And now I'm singing like...

Yeah I know this is real weird  
I should be scared but I feel differently  
Could we be destined to be?  
No - This is crazy, don't mind me  
But wait - are you starting to blush?  
Maybe this could work if you just never eat me  
Could we be destined to be?  
Could we be destined to be?
