Welcome Back

Tryhardninja

Come here down below,
Where nightmares go to wait
If you hesitate,
I won't blame you no...

Monsters in the dark
Won't show you no restraint
You gotta concentrate
To preserve your soul

Will your time run out?
(Tick, tick, tick)

Behind friendly eyes
There's a face that hides
Coming for your life,
You won't last
Closer we're alive,
Its time to survive
Another five nights
Welcome back

(Welcome back)
Back again so soon?
We've all been preparing for you
Another fright
Another scream
Another broken rotten dream
Welcome back

Hold your breath and close your doors
It starts again (it starts again)
Can you reach the end? (reach the end)
With your mind unscathed?
Lurking in the shadows
Secrets of the past (secrets of the past)
Locked behind the masks
(Locked behind the masks)
At our masquerade

Follow me to the horror show
You're the attraction we're watching
Its me, who is in control
Holding on to the puppet strings

Behind friendly eyes
There's a face that hides
Coming for your life,
You won't last
Closer we're alive,
Its time to survive
Another five nights
Welcome back

Will you live to see the light?
Its another five long nights
Can you out run your demise?

Its another five long nights
Innocence slowly unwinds
Its another five long nights
Will your final hour chime?
Its another five long nights
(Tick, tick, tick)

Behind friendly eyes
There's a face that hides
Coming for your life,
You won't last
Closer we're alive,
Its time to survive
Another five nights
Welcome back
Welcome back
Welcome back

Back again so soon?
We've all been preparing for you
Another jump
Another scare
Spend the night with us
If you dare
Welcome back
