

# When The Wolf Comes Around

Tryhardninja

Here kitty-kitty, why the sour Puss and fearful eyes?  
I thought that heroes had to stay calm?  
It's time to say goodbye to all your lives, it ends tonight  
I am oblivion full stop  
And there is no escape  
Feed on your fear until you break  
Fall on the blade that seals your fate  
'Cause I'm here in the flash, and you  
Try to run away  
Lucky for me I love the chase  
I am the Wolf, and you're the prey  
Don't be such a scaredy cat

The brave are not so brave now  
When the Wolf comes around  
Pale white on their faces  
When the Wolf comes around (there is no stopping me)

Here kitty-kitty, are you going out without a fight?  
I gotta say I'm disappointed  
Before you go, though I would really like to take a slice  
Yeah, for this reason you were chosen

Fang-fang, cut-cut, drip-drip, blood-blood  
When the Wolf comes around  
Fang-fang, cut-cut, drip-drip, blood-blood  
Now you're deep underground

The brave are not so brave now  
When the Wolf comes around  
Pale white on their faces  
When the Wolf comes around (there is no stopping me)

Face the darkness, Death incarnate  
I am the end straight up, here kitty-kitty  
Let's be honest, it's barely a challenge  
But you can still try your luck, here kitty-kitty  
The brave are not so brave now  
When the Wolf  
Pale white on their faces  
When the Wolf (when I come around)

The brave are not so brave now  
When the Wolf comes around  
Pale white on their faces  
When the Wolf comes around (there is no stopping me)

Fang-fang, cut-cut, drip-drip, blood-blood  
When the Wolf comes around  
Fang-fang, cut-cut, drip-drip, blood-blood  
When the Wolf comes around (there is no stopping me)
