

Wither Heart

Tryhardninja

How many wounds is too much?
How many scars will it take?
How many battles can I survive
Before who I am breaks?

Take and you take and you take a little more
Now my own heart doesn't feel anymore
Searchin' I'm searchin' I'm searchin' I long
For something to cure

My wither heart
My wither heart
My wither heart

My wither heart

Help me I need a lifeline
This toll weighs my pulse down
The vultures are circling
They know what's coming
My body's turning cold
From the inside out

Take and you take and you take a little more
Now my own heart doesn't feel anymore
Searchin' I'm searchin' I'm searchin' I long
For something to cure

My wither heart
My wither heart
My wither heart

My wither heart

Help me I need a lifeline
Help me I need a cure

Take and you take and you take a little more
Now my own heart doesn't feel anymore
Searchin' I'm searchin' I'm searchin' I long
For something to cure
My wither heart
