

# You Made A Monster

Tryhardninja

I-I've been touched by somethin' evil  
That only you can know about  
And that all goes around  
K-karma comin' closer, like two people  
Who, now by blood and tears, are bound  
The clock is counting down  
It takes a demon to see the devil in disguise  
Before it takes another life  
One that you made in your own image and design

Inseparable, you and I  
Inseparable, you and I  
Inseparable by your lies

Mix and match, rebuild from scrap  
Cursed, thanks to you, I'm a salvaged imposter  
My old life won't have me back  
How perfect, a monster to deal with a monster

You set the motion, all I have left  
Is bringin' carnage to an end  
Your knife won't fall again  
In real time, feel the butterfly effect  
That crushing wave upon your head  
The decades of earned dread  
It's what you made me  
I am the guilt you try to hide  
One more loose end you wish you'd tied  
No soul to lose, 'cause after all, you've stolen mine

Inseparable, you and I  
Inseparable, you and I  
Inseparable by your lies

Mix and match, rebuild from scrap  
Cursed, thanks to you, I'm a salvaged imposter  
My old life won't have me back  
How perfect, a monster to deal with a monster

(Ah-ah-ah, ah-ah) To deal with a monster  
(Ah-ah-ah, ah-ah) Monster  
(Ah-ah-ah, ah-ah) The monster  
(Ah)

(Become) The monster to deal with a monster  
(They need) A monster to deal with a monster  
(You made) The monster to deal with a monster  
I am the monster to deal with a monster
