

Norge

Tsjuder

Desolate landscapes
So fucking cold and dark

Unholy ungodly ancient
Evil prevails
No fucking hope
Norge!

Mountains reaching for the sky
Snow ice and darkness

The sky so bright so black
It's so fucking cold it warms
The darkness casting shadows
Norge!

Demonic creatures hunt
Sounds of primeval fear
The nature will possess you
And show your soul true death

Survival of the fittest
No mercy for the weak
Only hardened warriors
The land of inhospitality

Unholy ungodly ancient
Evil prevails
No fucking hope
Norge!

Desolate landscapes
So fucking cold and dark

The sky so bright so black
It's so fucking cold it warms
The darkness casting shadows
Norge!
