

KILLING ME

TSS

(I think I saw you in the night before my eyes, I can't define)

Je pourrais tout donner
Tu pourrais tout me prendre
Et pourtant tu n'es pas là
Des années sont passées
Des années à t'attendre
Et le soir je pense à toi

Parce que j'me suis égaré
Dans les ombres de ceux qui restent
J'vois les nuits qui défilent
Sous les lumières de la ville
Et pourtant tu n'es pas là

(I think I saw you in the night)
I think I saw you in the night before my eyes, I can't define
(I'll be forever yours)
I think I saw you in my sleep, you're all I need, you're all I see
And this is killing me
I've spent my life in the dark
I can only stand and stare
Everytime I get better, I recall what you said
And die a little instead
Now I'm trying to fit, in the s-s-six feet deep pit you dug for me

It rains, it pours, just like you wanted, just like you promised, I'm giving
in
It rains, it pours, just like you wanted
I hope you haunt me, It's killing me

(It' killing me)

I think I saw you in the night before my eyes, I can't define
(I'll be forever yours)
I think I saw you in my sleep, you're all I need, you're all I see
And this is killing me

My soul is yours till the end of time
And I hope somehow you can feel these lines
My soul is yours till the end of time
If I could hold you close, I would love you back to life

Life
Life
Love you back to life

I think I saw you in the night before my eyes
I think I saw you in my sleep, you're all I need, it's killing me

I'll miss you till the end of time
Even in the brightest skies
On the day I meet my end
When I burn in hell
