

Someone

TSS

It's raining, on a Sunday night
The room is cold but I'm sitting, on the ground
And there is no sound, on a Sunday night
A sob, a sigh under the, city lights
I'm going crazy, on a Sunday night
Shadows are laughing at me an-other time

I won't just let it drag me down
Even if you don't help me out
I tried my best to, do without
All the things we've talked about

I won't just let it drag me down
Even if you don't help me out
I tried my best to, do without
All the things we've talked about

The Sun is fading, on a Sunday night
The sound of the sirens clouding, every thought
And there is your song, on a Sunday night
The one you used to sing when, we were alright

I won't just let it drag me down
Even if you don't help me out
I tried my best to, do without
All the things we've talked about

I won't just let it drag me down
Even if you don't help me out
I tried my best to, do without
All the things we've talked about

I won't just let it drag me down
Even if you don't help me out
I tried my best to, do without
All the things we've talked about

I won't just let it drag me down
Even if you don't help me out
I tried my best to, do without
All the things we've talked about
