

# The Hunger

TSS

They are never gonna find me  
Twisted, misfit but it's in my blood  
Better shoot me now  
They are never ever gonna catch me  
I'm already far, I'm already far  
I can't stop this now

I'll say it again that I try in vain, but there's nothing I can do about it  
It's in my veins, I can't dissolve the pain, I can't dissolve the pain, no

Let me take you to a higher ground  
I will show you where the ups are down  
You can't wake up, you won't wake up  
She said that she thinks that I am the devil

Let me take you to a higher ground  
I will show you where the ups are down  
You can't wake up, you won't wake up  
She said that she thinks that I am the devil

I'm never ever gonna fight it  
My heart is strange and I know, Imma regret it  
You should have shot me then  
You could never ever understand this  
I need to hurt you bad, but you won't feel a thing  
You can't stop me now

I'll say it again that I try in vain, but there's nothing I can do about it  
It's in my veins, I can't dissolve the pain, I can't dissolve the pain, no

Let me take you to a higher ground  
I will show you where the ups are down  
You can't wake up, you won't wake up  
She said that she thinks that I am the devil

Let me take you to a higher ground  
I will show you where the ups are down  
You can't wake up, you won't wake up  
She said that she thinks that I am the devil  
She said that she thinks that I am the devil

Is it too late, to cry  
When you've already wasted all your life  
Is it too late, to start  
Over, again  
Is it too late, to cry  
When you've already wasted all your life  
Is it too late, to cut out  
The worst, in me

Let me take you to a higher ground  
I will show you where the ups are down  
You can't wake up, you won't wake up  
She said that she thinks that I am the devil

Let me take you to a higher ground  
I will show you where the ups are down

You can't wake up, you won't wake up  
She said that she thinks that I am the devil

She said that she thinks that I am the devil  
She said that she thinks that I am the devil
