

## Better Half

Tsu Surf

Yeah, I dropped out of school, but I'm still good at math  
My better half is not my better half  
Everything I earned is what I gave to ya  
'Til death do us part, to the grave with ya

I hit you in the city, you ain't have the time  
Same excuse you givin' to me every time  
Thought you had it on lock, but it was never mine  
Too busy wastin' money, never wastin' time  
Can't get caught up in this lifestyle (Yeah)  
Better watch how I move because this life wild (Yeah)  
But niggas turn they back because this lifestyle get way too treacherous  
I would never turn my back on niggas, promised not to mention

This Johnny Dang been gettin' colder than my heart lately  
Tryin' not to mention or add up shit while they talk crazy  
Want me? Gotta work for that  
From a jungle, open wreck, I hear they knockin' ours  
Death don't know who next, just know essential, what'll chase these Percocets  
But dawg with me, it's more niggas on my JPay than here in this club with me  
Lil' bitch want her titties done, that lil' bitch know I love titties  
I leave footprints everywhere I go, I'm from a mud city  
If he got life, then that mean it's death, that mean the judge did it  
How we mix Amiri with the Prada like it's apple juice and Casa?  
A lil' jazzy and Tasha put the flag on it  
Know that bitch a devil, she just got a lil' ass on her  
Every real killer got a price, we put a tag on 'em  
Suck me when I'm stressin', I can't front, I'll blow a bag on her  
Tell a plug, "If it ain't got a thirty, we gon' pass on it"  
Niggas think we cappin', they ain't respect us 'til we smashed 'em  
(Niggas think we cappin', they ain't respect us 'til we)
