

## DIE LEGEND

Tsu Surf

Was time to step, we stepping  
I'll prolly die a legend  
Tell my bitch don't be stressing  
I know some opps in heaven  
I pray my daughter get it, hope she know daddy different  
Hope they don't come  
The feeling numb, perky's got me itching  
Shit I can't go to sleep, still pray my soul to keep  
And if I go, I gotta go, but I'm a go a G  
He acting bad again, it's like we had to spin  
If they ain't at where they be hanging than it's traffic then  
What'll do for a win, what you willing to lose  
Don't tell me what I should of did, you can't fit in these shoe  
s  
I really live that  
Catch em' slipping, gift wrap  
Swear I seen the devil close, both his eyes pitch black  
Is your brother, your brother?  
Is your dog, your dog?  
Guess you forgot about the code, I fought and we all  
I see dead people, I just counted 50 thou  
Tell them sit that in a box, a nigga might be sitting down

Was time to step, we stepping  
I'll prolly die a legend  
Tell my bitch don't be stressing  
I know some opps in heaven  
I hope they get the message  
Pray I don't miss the lesson  
Pray I ain't miss a blessing  
I'll prolly die a legend
