

# FEEL NOTHING

Tsu Surf

Make sure you have your ducks in order bro  
Other than that stay prayed up  
(HumBeats)  
Only god can judge us

Ugh

Man you niggas never killed nothin'  
Get ya chopper for your chain, you gotta drill somethin'  
Watch your mouth, I hear them people tryna bill somethin'  
Been tryna put these pills down, don't wanna feel nothin'  
Man you niggas never killed nothin'  
Get ya chopper for your chain, you gotta drill somethin'  
Watch your mouth, I hear them people tryna bill somethin'  
Been tryna put these pills down, don't wanna feel nothin'  
Don't wanna feel nothin'

The problem is when you rich & they ain't got nothin to lose  
You know what you can do, but you ain't got nothin to prove  
And you blessed and you favored and you know that the devil is  
watching

And haters is gonna try but they know that they never could sto  
p him

All this pain in the game, niggas start numbing up  
We was selling cain, tryna get stains when we was coming up  
You was a HotBoy but I heard that flame had bud em up  
And on a heavy night, you know each chain is like a 100 up  
They giving out these RICO's, like free throws the feds playing  
foul

Boy they rock your ass to bed, you try to play with trial  
Til death do us part, you know we all chose to take a vow  
Last case I had, I swear I spent just like 80 thou'  
But you can't put no price on your freedom  
I be praying I could pay the lawyer the right price that can be  
at em'

I don't even write my raps down, I be scared to leave a paper t  
rail

They left my little man up on the block, he was tryna make a sa  
le
