

Frozen

Tsu Surf

Living to die, dying to live
We trying to fight, trying to fit
So the blood inside is starting to build
I gotta iceberg where my heart used to be at, frozen
I gotta iceberg where my heart used to be at, frozen

Niggas dying make the weather change
Never folded when the pressure changed
You never toting, never changed
Switched your gang, you was never gang
Late nights, like two something
Praying these pain pills do something
Paranoid, I don't know who coming
Saying a prayer for we shoot something
Heart been froze for a minute
God know why I been sinning
Feel like I ain't finish
Streets still fuck with my feelings
Broken heart, looking for the killer, real talk
Cuz dead and we still talk
Late nights, them pill talks
Real niggas getting kilt off
Real niggas geting kilt off

Living to die, dying to live
We trying to fight, trying to fit
So the blood inside is starting to build
I gotta iceberg where my heart used to be at, frozen
Iceberg where my heart used to be at, frozen

Gangland til they smoke a nigga
Twenty years what they throw a nigga
Level four where they'll poking niggas
Head high, I told 'em hold a nigga
Lawyer paid off, we on it nigga
That's the most love I ever showed a nigga
Blackheart, heart froze a nigga
Blackheart, heart froze a nigga
Life changed to a dice game
Never give the pigs the right name
Bang blood gang the right way
I'ma squeeze when I'm in a tight space
Last time a nigga showed a blam on the internet was probably MySpace
Last time I tried to blam a nigga was shit, he know what happened on that hi
