Ugh

Foreign nights we really had the summer  
Screaming free the thug, really grabbed the gunna'  
Pay a bitch to fly just cause lous don't like tracking numbers  
Stack the butter  
Dior for Alana, Louie bag my mother  
My heart wasn't there, but she was loyal, so I had to love her  
Keep straps, City signs was up  
We gotta press em' til they leaned back  
Dreams of cuz dying before he died, I really seen that  
How you broke and you can make a dollar where it's fiends at?  
Too much Fentanyl another case and we don't need that  
Want it if the cost right  
Why you claim you won, can't tell me what a loss like  
Carti watch the same wrist the bracelet, extra frost bite  
Bussing off that perky, got him ashing on his Off White  
Hopefully you get inspired  
If we ever promised him a coffin, made him fit inside  
You don't know it's room to stretch your legs till you get inside  
Couldn't duck the opps' if we wanted to we was living by em'  
They gone freeze the body till somebody come identify it  
Trust me I was made for this  
I ain't have sushi, till I had it wit a Asian bitch  
Chop sticks, soy sauce, Kikoman glaze shit  
Somebody hauled off we ain't leaving who we came wit  
Pay the price, what you want?  
Cause I ain't taking bets after I shake the dice  
Shit get to kicking you'll miss, if you don't spray it right  
Bad bitches like the dick and money, make her play it nice  
Locked wit a nigga who got life, said it changed his life
