Life too hard out here
We go hard out here
Ain't no god out here
Allah won't spark out here
Love is all we fear
Ain't no god out here
Ain't no god out here
Life is hard out here
Life is hard out here
We go hard out here
Ain't no god out here
Allah won't spark out here
Death is all we fear
Ain't no god out here
Ain't no god out here
Life is hard out here

Enemies, same as friends
Couple niggas came and went
Cooked it up, gave it out, block party, Cater shit
Leaning back, thinking about regrets
While I'm dreaming back
My daughter needed shoes
Man, somebody mother needed crack
Ain't no trap queen... that queen trapped
And you just thinking you're selling a fiend crack
Guess the ends justify the means, supply the fiends
That white girl, Madonna things
A phone call, it's a whole lot of things
Cold nights, me and my protection on them alone nights
It's cold, right? Whipping rocks; Indiana Jones like
Bail money, lawyer problems
Gun charge, paranoia problems
Shit stay with me. One of y'all believer, go and pray for me!
These pills keep me calm for the moment
I'm rollin' like this shit stolen, I made it so now I own it
I stack it and then I blow it, stack it and then I blow it
It's coming, a nigga know it, it's coming, a nigga know it

Life too hard out here
We go hard out here
Ain't no god out here
Allah won't spark out here
Love is all we fear
Ain't no god out here

We go hard, whipping hard

Then ship the hard, when shit was hard
You let it dry, the shit get harder
Left hand, I feel like Harden
Right hand, flick of the wrist
Fly here, just look at the bitch
Foreign in a foreign with a four, skrrrrt, pull-up be sick
Ain't no god, well, I ain't seen him
If it is, ain't trying to meet him
Cold water, sharks, I'll be fishing in piranha season
Seen some niggas drown, I could still hear his mama screaming...
Man I could still hear his mama screaming...
Hit the blunt, fuck it. Whatever happen, just happen
Just happen to have it on me in case it happen
This place is savage
We go hard, whipping hard
Then ship the hard when shit is hard
You let it dry, the shit get harder
Left hand, I feel like Harden
Say it twice because I stand on it
If it's dope, you put a stamp on it
If it's a lick, you put your man on it
If it's a lick, you put your man on it
If it's a lick, you put your man on it
